

01 / SEE THE DIFFERENCE

One kimono. Two moods.

A sample of the visual styling cards in Your First Kimono Outfit.

QUIET CONTRAST

A pale belt creates a softer contrast against the dark blue.

A WARM FOCAL POINT

A rust-coloured belt draws the eye to the waist.

TRY IT WITH WHAT YOU OWN

Lay out one kimono with two different obi. Photograph each in the same light. Which combination feels more like you? Keep the photos side by side before deciding what to buy.

Design study only: simplified garment diagrams illustrate colour contrast. They do not establish appropriate garment types, season or formality. A published edition would use approved real outfits and expert-reviewed explanations.

02 / TAKE IT SHOPPING

Buy the missing piece.

A practical pocket card for turning inspiration into a considered purchase.

1 Start with an outing

Where would I like to wear this? What kind of look do I want?

2 Check what I already have

Save a photo of the kimono and accessories I want to use. Bring the relevant measurements or ask a fitter what to record.

3 Ask before buying

Will this work with my chosen outfit? What are its measurements and condition? What else would I need to wear it?

4 Count the complete cost

Include any missing accessories, alterations, delivery or care costs before comparing options.

03 / MAKE IT YOURS

An outfit worth repeating.

A printable page for your own photos, combinations and small discoveries.

YOUR OUTFIT PHOTO

A normal phone photo is enough. Print and attach it, or add it with your preferred PDF annotation tool.
